

Esse 3 P'750 suction pump

Germany Technology , Italian Design

Feature:

- High flow system with 3liters~5liters/min
- filter system for sterility
- full automatic ,no adjustments required
- stand-by function for noise and wear decrease

P'750 pump

The P'750 pump is a powerful suction and irrigation pump for all surgical applications and is popular using in medical operation. The system works fully automatically. During the work, no adjustments and necessary. Overpressure in the irrigation bottle and underpressure in the suction bottle are controlled and balanced by high sensitive electronical sensors and microcontroller. the automatic stand-by function keeps the pressures available and reduces the noise if the system is not used.

The use of disposable sterile air filters avoids contamination of the p'750 pump and irrigation liquid by contaminated air.

All accessories like tubes ,suction bottle and puncture tube are full autoclave.

The P'750 pump is very simple to install and easy to use.

TECHNICAL DATA

Power supply:	AC220±10% switchable
Irrigation:	max: 3000ml/min (1)
Suction:	max: 5000ml/min (1)
Dimension :	410X415X230MM
Weight:	7kg
Working noise:	≅ 55DB
Class/type :	I/BF
Working atmosphere:	0C° -40 C°
Manufactured and tested according: ISO13485&ISO9000	

Delivery contains

- P'750 pump
- 2 liter suction bottle with holder
- 2 sterile filter
- 1 silicone tube set for suction
- 2 silicone tube set for irrigation
- 1puncture tube for rinsing bottle
- 1 Electrical source line
