

## TOP 28 High Frequency x-Ray Generators

# TOP 28 High Frequency x-Ray Generators

- button for 'power on'
- button for 'power off'

- radiographic parameters display
- exposure indicator

- Bucky selector
- focus selector
- screens selector
- automatic exposure meter selector
- programmed technique selector
- program 'store' button
- button for preparation/emission X-Ray

• tomography selector

• kV, mA, s selection controls

low absorption

High frequency X-Ray generator for general diagnostic examinations featuring excellent performances. Top 28 has the advantage of requiring only a single phase electrical supply drawing a maximum of 16A (230VAC). It also incorporates an internal energy accumulator that enables high powered exposures to be produced even if the mains electrical supply is poor.

93 42 EEC directive II b class CE 0051
